SUMMARY

Computer Science graduate focused on backend engineering with project and internship experience building Java services and REST APIs.

TECHNICAL SKILLS

Java, Spring Boot, REST API, SQL, PostgreSQL, MySQL, Git, GitHub, Docker, AWS, Microservices, Python

EXPERIENCE

Backend Engineering Intern - CloudCraft Labs

May 2026 - Aug 2026

- Developed Spring Boot REST APIs for an internal workflow platform.
- Implemented PostgreSQL queries and reduced duplicate database calls.
- Used GitHub pull requests for reviews and Docker for local service setup.
- Added unit tests and assisted with deployment debugging.

PROJECTS

Recruitment Tracking API

Built a Java and Spring Boot microservice with REST endpoints for jobs, candidates, and applications. Used PostgreSQL, Docker, GitHub, and AWS deployment experiments.

Expense Manager

Created a Python application with SQL persistence and automated reporting.

EDUCATION

B.Tech in Computer Science and Engineering, 2026

Sample Institute of Technology

CERTIFICATIONS

AWS Cloud Foundations - Academic Training

Java Programming Fundamentals
